

NECKY KAYAKS

New for 2010!

# LOOKSHA™ ELITE composite

An outstanding sea touring, expedition kayak with excellent tracking, performance, glide, and overall handling characteristics. The Looksha Elite is the kayak to get you there. This kayak has bow and stern hatches with bulkheads for a combined storage capacity of more than 200 liters, yet its responsiveness is unparalleled. In addition to a rudder for better control, the SmartTrack™ foot pedals with toe control allow for more efficiency during your stroke.

## 1 SmartTrack™ Control System

- Ergonomically designed, two-part foot pedals
- No full foot slide is required to steer
- Steering only requires slight toe pressure versus standard full leg/foot motion

(not shown)

## 2 Cross Lock™ Hatches

- Cross Lock strapping system offers continual pressure ensuring watertight seal
- Hatch gasket accommodates surface imperfections, is watertight and "self seating"
- Large storage capacity (90 L / 115 L) with bulkheads

## 3 Storage Capacity\*

With an enormous amount of storage capacity, the Looksha Elite allows you to fully "gear up" for your next adventure – it's practically like car camping!

\*With 205 liters of storage capacity the Looksha Elite can hold up to thirteen 15-liter dry bags.
