

New for 2010!

RIP™ polymer

Bringing Necky's performance heritage to the recreational class, the new Rip is a lively, playful, beginner to intermediate kayak designed to help grow paddling skills without sacrificing fun on the water. Efficient length and a sharp keel give the Rip tremendous glide. Features include a large roomy cockpit for easy entry and exit, our Quick-Seal stern hatch for ample, dry storage, with a bulkhead for added security, as well as a specially engineered foam seat base, lower back pad, and thigh pads for superior comfort.

1 Rip Thigh Pads

- Custom foam pads, built for comfort and control
- Quick drying material

2 Necky Comfort Flex Seat

- Flexes with each paddle stroke for all day comfort
- Specially engineered seat pad to channel water to the lowest point for quicker, faster drainage
- Easy, one-pull adjustment system
- Cup or water bottle holder

3 Quick-Seal Hatch

- Gasket seal for optimal watertight fit
- Optimal storage (70.5 L) with bulkhead
- Quick to open, closes securely with Cross Lock™ buckle system
